

Zero^{UF} Plus

Eco-friendly hardwood plywood

Zero^{UF} Plus

Eco-friendly hardwood plywood

Taking green a little further

With Zero^{UF} Plus decorative hardwood plywood, you'll not only get top quality panels produced with our urea-formaldehyde free soy-based adhesive technology, you'll also get a **NAUF core** of your choice (Uniboard NU Green PB, NAUF MDF or NAUF VC platform). It takes the benefits to you and the environment to the next level.

The benefits are multiplied

Zero^{UF} Plus offers even greater benefits to the environment, your indoor air quality and the reduction of formaldehyde emissions.

- Even greater moisture resistance
- Even better indoor air quality
- Even lower UF emissions
- Far exceeds CARB standards
- LEED® compliant and may earn up to **six LEED credits**

Setting new standards

Zero^{UF} Plus not only offers lower formaldehyde emissions that by far exceed California requirements, it can help earn even more LEED credits — **up to six**. Incredibly, our Zero^{UF} Plus panels have an even lower formaldehyde emission level of below 0.02 ppm — a remarkable environmental achievement!

Mastering the Art of plywood making since 1940

Earn up to 6 LEED points

| Category | Requirements | LEED credits | Our solutions |
|--|---|--------------------------|---|
| IEQ 4.4 Low-emitting materials | Composite wood products must contain no added urea-formaldehyde | 1 | Uniboard NU Green PB, NAUF MDF or NAUF VC |
| MR 4.1 Recycled content | Sum of recycled content constitutes at least 7.5% of the total value of the materials in the projects | 1 | Particleboard or MDF |
| MR 4.2 Recycled content | Sum of recycled content constitutes at least 15% of the total value of the materials in the projects | 1 added to 4.1 | Particleboard or MDF |
| MR 5.1 Regional materials | Use a minimum of 10% of the combined value of construction materials and products manufactured within a 500-mile (805 km) radius of the project | 1 | Husky Plywood Ste-Therese, QC |
| MR 5.2 Regional materials | Use a minimum of 20% of the combined value of construction materials and products manufactured within a 500-mile (805 km) radius of the project | 1 added to 5.1 | Husky Plywood Ste-Therese, QC |
| MR 7 Certified wood | Minimum of 50% of wood based materials and products, certified in accordance with FSC | 1 | FSC certified hardwood plywood |

NAUF = No added urea-formaldehyde

Note: Formaldehyde is normally present in low concentration both in the interior and exterior ambient air. These levels have no effect on health.

Designed to be even greener
